### Trail Bits

**Hobo Hop** - Our easiest, most gentle terrain. Take a rejuvenating and leisurely stroll through gradually rolling and winding native forest groves and enjoy the accessible, yet secluded silence of scenic Mill Valley.

**Clickity Clack** - Ramble your way through a variety of ecosystems, from dense timber to open meadows on this intermediate adventure. Experience this classic snowshoe trail and either head in for a hot beverage or continue on to Steppin' Stoker.

**Steppin' Stoker** - This Advanced-Intermediate trail meanders past stream views, climbing up through large cedar trees to open vistas of Mill Valley. Keep your eyes open; Steppin' Stoker is a great place to see local wildlife including Owls, Pine Martens, Rabbits, and Bobcats.

**Coal Burner** - An extension of Steppin' Stoker and Clickity Clack, Coal Burner ascends the valley to views of Mill Valley. This trail winds back down to Guthrie Loop- the site of the annual Stevens Pass Biathlon, the historic Guthrie Camp town site, and our warming hut.

CCSAA's mission is to foster, stimulate, and promote cross country skiing in North America, to further and protect the legitimate interests of the cross country ski operator, and to provide for the establishment of reasonable standards for the protection of the cross country skier.
